Aims and Scope: *Immunology and Cell Biology* is the official journal of the Australasian Society for Immunology. This leading regional journal has established an international reputation, built on more than 75 years of innovative publishing, reflected in its current Impact Factor of 2.531. The Journal publishes peer-reviewed full papers and brief communications describing original research, methods and concepts in the broad fields of immunology and cell biology, and strongly encourages the submission of 'theoretical' articles to challenge and provoke discussion in the international scientific community. The Journal also occasionally publishes 'Special Features', which are by invitation only, although the Editor-in-Chief (christopher.parish@anu.edu.au) is receptive to suggested topics for Special Features.

Abstracting and Indexing Services: The Journal is indexed by *Academic Search (EBSCO), AIDS Information, Australian Medical Index, Biological Abstracts (BIOSIS), Biomedical Reference (EBSCO), CAB Abstracts, Cambridge Scientific Abstracts, CancerLIT, Cancer Therapy of the Upper Gastrointestinal Tract, Chemical Abstracts Service, Elsevier BIOBASE/Current Awareness in Biological Sciences, Current Contents/Life Sciences, EMBASE/Excerpta Medica, Health Source Nursing/Academic (EBSCO), Ingenta, Journals@Ovid, MEDLINE, ProQuest, Reference Update, Research Alert* and *Science Citation Index.*
